DJ BIO

Breaking the dancefloor since 1992, DJ Marty McFly is one of Canada's original breakbeat DJs. He combines the oldskool funkybreaks of yesterday with the newskool digital bass of today.

DJ MartyMcFly is one of Canada's original electronic breakbeat DJs. He started mixing back in 1992 and continues to break beats today by combining the oldskool funkybreaks of yesterday with the newskool digital bass of today. Before Covid, Marty had been DJing all over Canada primarily but also in the USA: California, New York, Florida, Oklahoma, Utah. If you've seen him before, you are OldSkool and shouts out to you. But if this is your first time, thanks for loving breakbeats and big up all junglists.

Performance video

Video set recorded and narrated from behind the DJ booth.

Marty on TV

I'm a new DAD and in my spare time I made a DJ stroller to go for walks on with my son. I call it the ConStroller. This is the [link that was featured on TV](#).
